GEOPHYSICAL ELECTRICAL WELL LOGGING FIELD
 DETAIL OF WATER BEARING ZONES

LAT: LONG:
 Name of agency: Woodhill Infrastructure Pvt.
 Village: Badhi Must Block: Nukul
 District: Saharanpur Logging Depth: 160 m
 Drilling Depth: 165 m Water Level: 8 m
 Co Rep.: Mr. Farman

| S.No | Depth in Mtr. | Start Depth | End Depth | Width | Expected Geology | Expected Depth |
|------|---------------|-------------|-----------|-------|-------------------|----------------|
| 1 | | 0 | 32 | | Top Soil | |
| 2 | | 32 | 38 | | fine sand | |
| 3 | | 38 | 43 | | clay | |
| 4 | | 43 | 48 | | fine sand | |
| 5 | | 48 | 52 | | clay | |
| 6 | | 52 | 58 | | sand medium water | |
| 7 | | 58 | 62 | | clay | |
| 8 | | 62 | 71 | | sand medium water | |
| 9 | | 71 | 100 | | clay | |
| 10 | | 100 | 119 | | sand medium water | |
| 11 | | 119 | 121 | | clay | |
| 12 | | 121 | 127 | | sand fine | |
| 13 | | 127 | 131 | | clay | |
| 14 | | 131 | 141 | | sand medium water | |
| 15 | | 141 | 160 | | clay | |
| 16 | | | | | | |
| 17 | | | | | | |
| 18 | | | | | | |
| 19 | | | | | | |

Expected Water Bearing Zone

"For Geotechnical and Groundwater
 Pioneers of India"

[Signature]

Field Supervisor

Services Offered

Geophysical Surveys Using a Variety of Geophysical Methods for Practical Applications
 Case Studies: Geo-Environmental Surveys, Electrical Well Logging, Piezometer Logging
 Groundwater, Borehole, etc.
