THE JOURNAL OF CLIMATE

the original source may be identified or even be lost before it reaches its final resting place. This is important as many rare and unique historical sources of material on South Asia have been dispersed outside of India and are no longer available in India. The new strategy of creating a digitalized primary source would ensure the long-term preservation of these documents. It will also facilitate easier access to these primary sources by researchers and scholars around the world.

... que se pone en el libro de la gente buena y de la gente mala que se pone en el libro de los malos. Esto es lo que yo digo, que no es lo que dice el libro de la gente buena. Yo no sé si esto es lo que dice el libro de la gente mala, pero yo sé que es lo que dice el libro de la gente buena.
