... we have here in our first or older version, which is not much more than a year old, the following note from the editor of the *Philosophical Review* (Vol. 1, No. 1, 1860) to the author of the article on "The Nature of the Self," which was published in the same number:

Figure 1. A schematic diagram of the experimental setup for the measurement of the absorption coefficient.

many changes and growths there,
and we can only wait here for the end.

Using Deontic modalities (must) as a means to link regions of life that are by nature different from each other, we can highlight the differences between them and also point out the similarities between them.
