Human Body

How does the human body work? What are the different parts of the body? How do they work together?

Understanding the Solar System

What are the different planets in the solar system? How do they differ from each other? What is the sun?

Human Body and the Solar System

Let's learn about the human body and the solar system.

Our bodies are made of different parts. Some are big and some are small. They all work together to keep us healthy and happy.

The solar system is made of different planets. Some are big and some are small. They all orbit around the sun.
