With this our 1st day here we are back to our old ways again and "Majestic" is gone. Now we have been out fishing for over 10 hours and still have not caught even one fish. What happens? Majestic, suddenly, disappears. However, we do get another surprise in return that you have about 1000 more bass than those we caught earlier. These were some rather fat basses. At the end of the day we caught 100 bass and these 100 bass were measured to be between 10-12 inches in length. We made up 100 miles of road and 100 miles of water. This was quite a stretch of time to travel so many miles, but then because we had dinner at a restaurant in the evening before, this was nothing but a walk home by the time we got back to our boat and all this for us.

Only by a true and genuine writer is such a claim made.
