[illegible]

the 1990s, the number of people in the United States who are 65 and older is projected to increase from 35 million to 55 million. This increase is expected to be particularly significant for women, whose life expectancy is longer than men's. As a result, the number of women aged 65 and older is projected to increase from 25 million to 40 million. This increase is expected to be particularly significant for women, whose life expectancy is longer than men's. As a result, the number of women aged 65 and older is projected to increase from 25 million to 40 million.
